2019 has been a great year in Desa ParkCity, full of celebrations and fun events of all kinds for our visitors and guests. Since our last issue, Plaza Arkadia has been awarded the prestigious FIABCI 2019 Malaysia Property Award in the inaugural Mixed-Use Development Category for bringing true value and convenience to the people who come here.

The FIABCI award is for property developers what the Oscars are to actors, actresses, and filmmakers, so this is exciting news! And we're celebrating the big achievement with an equally big celebration, so you're in for a treat this end of the year!

The Christmas bells are ringing, and it's time for some giving! The Waterfront and Plaza Arkadia have all kinds of gifts for your whole family.

You can also expect to see new offerings this end of the year as our new tenants progressively settle in, and a jolly and snowy time awaits you at The Waterfront's Christmas Village, starting from early December.

Merry Christmas and Happy New Year!

MIXED-USE DEVELOPMENT CATEGORY

Another FIABCI Malaysia Property Award™ Achievement by PARKCITY

Plaza Arkadia has successfully revolutionised Malaysia's conventional shop-office concept.

A hybrid commercial plaza with shops, offices, SOHOs and open social spaces ingeniously arranged and presented in beautiful colonial-style architecture; was highly anticipated, eagerly received, and since its operation, much loved by property buyers, tenants, and the public.

FIABCI 2019 Malaysia Property Award

Inaugural Mixed-Use Development Category

It was indeed a successful night for Perdana Parkcity Sdn Bhd (ParkCity), this time bagging the 2019 FIABCI Malaysia Property Award in the inaugural category for Mixed-Use Development, for its Plaza Arkadia development in Desa ParkCity, Kuala Lumpur.

The award was presented by Yang Mulia Tunku Adj Prof Dato Sr Dr Fauzi Bin Tunku Dato Abdul Malek Al Haj to ParkCity's Group CEO Datuk Joseph Lau at the FIABCI Malaysia Gala Dinner held at the One World Hotel, Petaling Jaya on 2nd November 2019. This is the first time the mixed-use development category has been introduced by FIABCI Malaysia in its line-up of annual awards.

"It is very gratifying to be the first recipient of the FIABCI award in the mixed-use development category. Our strategy to keep growing Desa ParkCity's value as an address is to continually introduce new concepts and designs at every stage of the development. Plaza Arkadia reinvents the standard shop-office concept by redefining it as a hybrid - with vibrant social spaces, all packaged in a contemporary, pedestrian-friendly design inspired by colonial architecture, interlinked with the modern small-office-home-office (SOHO) units.

"Plaza Arkadia delivers on three strong objectives - it creates a strong sense of identity, it transforms the retail, living and working experience, and it redefines mixed-use. That's the secret of its success," said Datuk Joseph Lau.

Plaza Arkadia, a freehold development, was designed by California-based JRDV Urban International, known for designing commercial projects. Its current occupancy sits at over 80%. Tenants include anchors Village Grocer and Maybank, as well as a myriad of hangout places, learning and enrichment centres, workout studios, beauty salons, emporiums, artisanal shops, and service providers.

Plaza Arkadia is the first phase of Desa ParkCity's new 11.3-acre ParkCity TownCenter, which seamlessly incorporates the ParkCity DNA of walkability, sustainability and sense of community. In addition to the usual ParkCity ideals, Plaza Arkadia also delivers an integrated shopping, dining, entertainment and living experience.

How Do I Choose the Right Preschool for My Child?

The Early Years Centre at The International School @ ParkCity (EYC @ ISP)

Children are our future and your pride and joy! When it's time for your child to take the first step on their educational journey, you as parents will begin what may seem like the daunting process of finding the right preschool for your child and your family. When it comes to education, choosing the right preschool is possibly one of the most crucial decisions you will have to make, so what should you look for when choosing the right preschool for your child? Here is a list of some key points for you to consider:

- Location – where is the school located?
- Educational Environment – what facilities does the school have to offer?
- Curriculum – how and what do the children learn?
- Staffing – who will be teaching and caring for your child?
- Organisation – how are the children organised? How is the day organised?
- Communication – how can you find out about your child and how can you participate in their education journey?

With all of those things in mind, why should you consider The Early Years Centre @ The International School @ ParkCity for your child?

LOCATION

The multi award-winning township of Desa ParkCity is a tranquil, yet vibrant community that has everything you need on your doorstep. Set amongst the beautiful green parks and open spaces of Desa ParkCity is The International School @ ParkCity (ISP) and its Early Years Centre (EYC). In a busy city such as Kuala Lumpur, the pathways and pavements that link the school with Desa ParkCity's vast array of accommodation and services enable the children to have the unique opportunity to scoot and walk to school.

EDUCATIONAL ENVIRONMENT

In September 2016, the EYC @ ISP relocated to a purpose-built facility in the heart of the community, next to the Desa ParkCity Club House. The EYC caters for Nursery and Reception

children aged between 3 and 5 years old. The centre has been designed to create a natural, calm and comfortable learning environment with bright, open plan indoor spaces and a safe, green outside environment in which the children can enjoy nature.

CURRICULUM

At the EYC @ ISP we follow the Early Years Foundation Stage (EYFS) framework from England. This framework enables children to learn new skills, acquire new knowledge and demonstrate their understanding through the seven areas of learning and development: Communication and Language; Physical Development; Personal, Social and Emotional Development; Literacy (including phonics); Mathematics; Understanding the World and Expressive Arts and Design. The EYFS states that children learn best by playing and exploring, being active in their learning and by being given opportunities to be creative and think critically.

STAFFING

Our passionate and highly skilled Early Years team work together to give the children the best possible start to their educational journey. Holding teaching qualifications from universities in both the United Kingdom and Australia, the teaching team is supported by a team of dedicated classroom assistants, our own school nurse, administrator, security guard and housekeepers. Each child has their own teacher and classroom assistant whose role it is to provide the children with safe and challenging environments, giving the children the time, space and resources they need to support and extend their learning.

ORGANISATION

A typical day for a child who attends our Early Years Centre would begin at 8.30am; however, we have a flexible drop off from 8.00am for all children also giving parents some time to 'stay and play'. The school day finishes at 2.15pm and we offer a supervised shuttle bus service to the ISP main school site, as well. Throughout the day the children take part in a balance of adult-led and child-initiated activities which are enhanced by a wide variety of specialist lessons. These lessons include Mandarin, Bahasa, Swimming, Physical Education, Library, Performing Arts, and Baking and are taught by our talented specialist teachers.

COMMUNICATION

At the EYC @ ISP we promote a family atmosphere where everyone is welcome. We love to meet and greet parents each morning and afternoon, we are easily contactable via email and share key information via our website and the online application FlexiBuzz. Each child has their own individual, online learning journey, and we have parent-teacher conferences throughout the year.

Children from all over the world attend the EYC @ ISP and we work hard to build upon the children's varied, existing knowledge and experiences, providing opportunities for progression, extension and challenge. Through the universal language of play, children are able to communicate, make friends and grow as individuals irrespective of language, culture, religion, ability, or gender. The EYC @ ISP is a truly magical place to learn, play and grow!

The best way to decide whether you and your child will be happy in your chosen preschool is to visit. So, if you would like to find out more about our Early Years Centre and how the children learn then we welcome you to come and meet us! ■

The International School @ ParkCity (ISP) opened in September 2011 and is located in the highly acclaimed township of Desa ParkCity in Kuala Lumpur (www.desaparkcity.com).

The school caters for students aged from 3 to 18 years old, delivering a seamless curriculum from Nursery through to Year 13. ISP's challenging programme of study, broadly based upon the National Curriculum for England, leads to the Cambridge IGCSE and A-Level qualifications enabling students to gain entry to prestigious universities worldwide. The focus on academics, sports and the arts helps to ensure students enjoy a broad and holistic education. ISP is a member of the renowned Federation Of British Schools In Asia (FOBISIA) organisation and was graded as an 'Outstanding School' in a recent International Schools Quality Mark (ISQM) accreditation inspection report.

With students from more than 50 countries, ISP is a place where internationally-minded and culturally aware students are encouraged to pursue both academic excellence and personal development, enabling them to take a leading role in tomorrow's global community.
